Community Exercise as part of this Meeting

In-Person Audience: Please try to coordinate a group response to each question.

Background: Staff have received mixed feedback so far on the recommendations. Some have expressed that we have not gone far enough in terms of the recommendations and others have expressed that we may have gone further than fits with their comfort level. **Two Questions for Your Group:**

- (1) Do you have suggestions on modifications to the proposed reforms or suggestions for additional reforms?
- (2) What are your thoughts on how to approach the City's affordable housing needs in the future, noting that there are a significant number of existing Alexandria households who are cost burdened.

Online Audience: Please feel free to answer each question individually in the "Q&A" icon on the Zoom screen.

Please stay engaged through the Zoning for Housing/Housing for All webpage.
